

EW Nutrition showcases customer-focused solutions for the animal nutrition industry at VIV Asia 2023

Singapore - March 1, 2023 – EW Nutrition will participate in VIV Asia 2023 to showcase science-backed solutions that meet the challenging needs of the animal nutrition industry. Held in Bangkok, Thailand, from March 8 to 10, 2023, VIV Asia is one of the biggest and most complete feed to food events in Asia, dedicated to the world of livestock production and animal husbandry.

“We are constantly innovating to provide best-in-class concepts and solutions for the industry. Our participation in VIV Asia 2023 will be a good opportunity to connect and discuss with our partners on how to collaborate to provide customised solutions in line with their needs.” said **Ramakanta Nayak**, regional director for EW Nutrition South East Asia/Pacific.

Located at Booth 3550, guests are invited to explore EW Nutrition’s new solutions and initiatives at this year’s VIV Asia, such as:

- **Ventar D**
Ventar D is a high-ROI, innovative proprietary blend of phytomolecules with efficient delivery, formulated to consistently support gut health and improve performance.
- **Prelect D**
Prelect D acts as a natural solution to support the efficiency of coccidiosis control. Prelect D, a unique proprietary blend of phytomolecules, offers natural support during Eimeria-related challenges, making it an effective addition to programs focused on coccidiosis control.
- **Spearhead**
EW Nutrition strives to contribute to sustainability in the animal protein production chain through the new initiative “Spearhead”, focusing on highly improved feed conversion, reduced energy use, reduced contaminants, and reduced emissions from farms.

Partnering with industry experts and key opinion leaders, EW Nutrition is also inviting VIV guests to attend a series of topical presentations at the booth. Under the title “Showtime”, these presentations aim to provide actionable insights and encourage discussion about the trends and challenges of the animal nutrition industry. “Showtime” covers a variety of topics, including:

- Why is it important to measure outside temperature properly, 8 March, 11am
- Coccidiosis Vaccination: Don’t take it for granted!, 8 March, 3pm
- Antibiotics reduction – the way forward for safe & sustainable food production, 8 March, 4pm
- Feed cost optimization, 9 March, 11am
- Better gut health, better egg shells, 9 March, 3pm
- Water – the central nutrient for growth, 10 March, 11am

About EW Nutrition

EW Nutrition offers animal nutrition solutions to the feed industry. The company's focus is on gut health, supported by other product lines. EW Nutrition researches, develops, produces, sells, and services most of the products it commercializes. In 50 countries, key accounts are served directly by EW Nutrition's own personnel.
