

Operations Manager Animal Care (gn)

How you contribute to our mission

- You are responsible for managing and optimizing all operational business processes at our productions sites Bremen and Visbek (+35 Heads)
- You coordinate efficient workflows in production, logistics, and supply chain
- You ensure compliance with quality, cost, and time targets as well as legal and regulatory requirements at all times
- You act as a coordinator in collaboration with other departments (e.g., Sales, Procurement, HR, IT) and business partners
- You take on both the professional and disciplinary leadership of the Operations team and actively promote the development of your employees
- You plan and manage the budget within the operational area
- Based on data analysis and key performance indicators, you derive and implement measures to increase efficiency — for example, through process improvement projects such as Lean Management or digitalization initiatives

What you should bring to this position

- You hold a degree in Business Administration, Industrial Engineering, Logistics, or a comparable field.
- You have at least 5–7 years of professional experience in a similar position, ideally within the feed or food production industry
- Your analytical thinking and strong organizational skills set you apart
- You enjoy working with Microsoft Excel and ERP systems, preferably Microsoft Dynamics Business Central
- You bring a high level of initiative, decisiveness, and a hands-on mentality
- Your profile is rounded off by excellent German and English language skills

What we offer you

- An attractive remuneration package
- Company pension scheme, company fitness and free drinks and fruit
- Reconciling family and career through flexible working hours with home office options
- A position in which you can grow professionally and personally and have good development opportunities
- Induction training from a motivated and energetic team
- A company with excellent growth potential in a crisis-proof industry
